SUMMARY OF OVERALL REPORT

In Q2 2023 GuildQB has been active as a community, organising 20 AMAs and hosting a talk session with great guests, CryptoTalk! are held weekly.

We also co-hosted the incubation programme 'Nethergate' to support GameFi projects. As a platform, we also announced the new project 'Not Found' and published the official website and white paper.

Other updates included the release of the Kisaragi badge and the announcement of the new badge NFT. In addition, new partnerships with web3games and blockchain-based projects have been signed.

Message from the founder

Q2 saw some movement in the market as a whole, with BTC on a recovery trend. Among other things, expectations for the BTC halving period have emerged with the announcement of major Japanese companies entering the Web3 game, attracting attention from overseas investment institutions.

In addition, GuildQB has focused on collaboration between companies and projects and the development of new business models, and has announced several of its collaborations. Connecting projects and users/communities and incubating new projects is also a role of the Guild, and Q3 is preparing as a team for the next BULL (Bull) with the themes of product development and giving back to the community.

AMA

GuildQB held 20 AMAs in Q2 – that's about seven per month, or at least one AMA per week. AMAs have been held for popular games like 'Climbers' and 'PROJECT XENO', but also for projects as diverse as 'Avacus' and 'Aki Network'.

CONFERENCE

As in Q1, we continued to actively organise offline events. The most notable event was the incubation programme 'Nethergate', which was held on 22 April 2023 in collaboration with Monobundle Co. Ltd. and was held at the headquarters of Money Forward Inc. under the concept 'Move GameFi'.

The jury included Joseph from METAPIXEL and Fujiwara from YGG Japan. 10 teams presented and 4 teams won awards GuildQB will continue to support the development of Web3 games.

Q2 UPDATE

In Q2, GuildQB published its official website and white paper, as well as announcing its new project 'Not Found'. Not Found is a new project in partnership with jewellers GEMCEREY and WITH ENTERTAINMENT, which will sell NFTs linked to physical jewellery.

The white paper details what GuildQB does and what it aims to achieve, which has been difficult to understand. It describes our vision for the badge function, QB Quest and QB Launchpad, as well as our scholarship as a gaming guild.

QB SNS / TWITTER & DISCORD

GuildQB continued to grow with our like-minded and thinking users in Q2 2023, strengthening social networking sites such as Discord and Twitter, which form the basis of our community. In particular, the official GuildQB Twitter (JP) had "57,000 (57K) followers" as of May 2023, but as of 13 June, the number of followers exceeded "70,000". Furthermore, at the end of June, the number of followers exceeded '90,000' and is growing rapidly.

In the future, GuildQB will continue to promote Web3.0 games and build a community by organising various events and activities that contribute to the gaming industry, with a focus on raising awareness of Web3.0 games.

QB Original NFT-KISARAGI-

There have also been several updates regarding the NFT "KISARAGI - KISARAGI" provided by GuildQB. The Kisaragi Badge is a badge NFT for users who own Kisaragi. In the future, a new system using the NFT badge will be announced.

It has become an essential NFT for belonging to GuildQB, such as holding Giveaways exclusively for Kisaragi holders, community voting and voice chats with Founder Keisuke Horiguchi (held regularly). In addition, Kisaragi NFTs are now available in the game NFT Wars, which launched on 25 June. We will continue to expand the utility of Kisaragi NFTs and give back to their holders.

ASSET MANAGEMENT

Continuing from Q1, we are managing Captain Tsubasa -RIVALS- assets. In Q1, we operated with 3 accounts with 45 characters, and we now have 12 accounts with a total of 700 characters.

▼ Q2 2023 CAPTAIN TSUBASA -RIVALS- MANAGEMENT RESULT

Unit : MATIC	1st round			Result
	Average character price	Total usable token gained (Minus the repair cost)		Profit
Account A	187.93	7,644.76		840 USDT
Account B	197.34	6,571.11		221.61 USDT
Account C	194.11	6,817.76		532.76 USDT
Account D~L	130.08	199,527.43		9,737 USDT + 2,917 MATIC
単位 : MATIC	2nd round			Result
	Total usable token gained (Minus the repair cost)	Refresh	Withdrawal	Profit
Account A	8,414.57	3,900	3,944	1,452 USDT
Account B	5,679	3,900	1,779	656 USDT
Account C	8,644.28	3,900	3,989	1,691.57 USDT
単位 : MATIC	3rd round			Result
	Total usable token gained (Minus the repair cost)	Refresh	Withdrawal	Profit
Account A	8,644.79	5,850	2,089.58	684.86 USDT
Account B	—	—	—	—
Account C	—	—	—	—

⚠ Notes

Profit units are partly in MATIC; MATIC tokens have not been exchanged for USDT due to falling prices.

PARTNERSHIP

GuildQB has partnered with projects ranging from Web3 games such as Climbers and THE LAND: Elven Forest to comprehensive blockchain-based solutions such as Avacus in Q2.

Through partnerships, we will continue to work with projects and contribute to the development of the web3games industry.

NEWS FROM WEB3 GAME SPACE

▼ Q2 2023 TO UNLEASH A WAVE OF MAJOR BLOCKCHAIN GAMES

Q2 saw the long-awaited blockchain games Heroes of Mavia and PolkaFantasy finally launch.

These are titles that have attracted a lot of attention both within and outside the industry and are expected to have a significant impact on the future development of the blockchain gaming market. The first beta test of "Heroes of Mavia" will begin on 30 June 2023 for a subset of Land NFT owners, after which the target will be gradually expanded to all Land NFT owners.

Meanwhile, PolkaFantasy was officially launched on 29 June 2023. It is the world's first blockchain game dedicated to Japanese anime, comics and gaming culture and is a three-on-three NFT card game.

COIN MUSUME: FLURRY OF ANNOUNCEMENTS AND PROJECT UPDATES

参照 : https://prtimes.jp/main/html/searchrlp/company_id/117158

Since the official launch of its website in June 2023, the blockchain game Coinmusume has strengthened its presence with a number of important announcements: in early June, it announced a partnership with the gaming guilds LGG and YGGJapan and started recruiting members for the 'Musume DAO'.

This was followed on 12 June by the announcement of the adoption of the game-specific blockchain Oasys and the introduction of a new character, Oasys.

On 22 June, the voice actors for Bit and Oasys were announced and the first performance of the Coinmusume theme song took place at an official side event of IVS Crypto 2023 KYOTO organised by Oasys.

And on 26 June, the music video for the song 'B-bi-bi Bit', provided by Avex Creative Factory, was released. Great expectations are pinned on their future growth and development.

OASYS UNVEILS Q1 INFLUX OF MAJOR COMPANIES ENTERING THE SCENE

参照：https://prtimes.jp/main/html/searchrlp/company_id/103934

In Q2 2023, Oasys continued to gain prominence in the blockchain gaming space. Leading companies such as Rakuten Wallet and MIXI participated as validators, with MIXI developing hit titles such as Monster Strike and plans for future collaborations.

Also in June, the Oasys Special Event was held as the biggest side event of IVS Crypto 2023, one of the largest crypto conferences in Japan. Several game titles were announced during the event.

- Com2uS/XPLA 'Summoners War: Chronicles'
- Ubisoft 'Champions Tactics: Grimoria Chronicles'
- double jump.tokyo 'Battle of Three Kingdoms'
- DMM.com / DM2C Studio "Coin Musume", "KANPANI GIRLS RE:BLOOM", "KAMIYAGURA"
- BLOCKSMITH&Co."QAQA"
- enish"De:Lithe Last Memories"

Other announcements were made at the same time, such as Digital Entertainment Asset Pte. Ltd. building its own Verse.

Major Japanese companies entering Web3 game space

The Q2 of 2023 was a period of activity in the web3 game for Japan's leading companies. Let's look back at some of the key events in this context.

First, Square Enix partnered with Elixir, a platform offering both traditional and web3 games; Elixir has already integrated the Epic Games Store library, and the partnership aims to promote web3 games. While details are still being worked out, the fact that a major established gaming company is entering the Web3 gaming space will in itself have a huge ripple effect on the industry as a whole.

Another important move is that major GREE has partnered with Mysten Labs, the developer of the Sui blockchain, and announced the start of Sui validation. This partnership to develop web3 games using Japanese IP shows that blockchain games could become more mainstream than ever before.

And let's not forget the Seamoon Protocol, a Web3 project announced by the DMM group of companies, which will release the DM2 Verse of Oasys Layer2 in summer 2023 and its own token DM2P in 2024. Furthermore, the full-fledged fantasy RPG Kanpani☆Girls RE:BLOOM is scheduled for release.

These series of developments show that major Japanese companies are seriously involved in web3games. As the potential of blockchain technology expands further in the future, initiatives by these companies are likely to see further growth and development.
